

RACE TRACK GENERATOR

By MasterPixel3D

Big Screens

In the scene, you will find Big Screens, which will be displaying, in real time, random regions of the race track:

The use of the Big Screens requires an additional camera in the game. An additional camera means more draw calls.

On desktop or high-end mobile devices, this will not affect the performance of your game. On low-end mobile devices it is recommended to disable "Camera-BigScreens" in the hierarchy.

If you disable "Camera-BigScreen", the Big Screens will look like this:
